

ISO 9001:2015 Revision
Is your business ready for the transition?

NOW is the time for your company to prepare for the transition to ISO 9001:2015.

The revised standard asks companies to pay particular attention to the following:

- ⇒ Increased emphasis on top management engagement with ISO 9001 (Clause 5)
- ⇒ Managing change (Clause 6)
- ⇒ Performance and evaluation (Clause 7)
- ⇒ Management review (Clause 9)
- ⇒ Risk-based approach (Clause 4)

Certified companies recognise that the standard helps them to become a more consistent competitor in the marketplace. By ensuring that they develop a strong focus on quality management, ISO9001 certified companies are able to more effectively attract and subsequently meet the needs of high value customers.

To support the revision requirements and **maintain your ISO 9001 standard certification**, maxi-mize QA is pleased to offer Consultancy services to assist with your gradual transition from ISO 9001:2008 to the revised and improved ISO 9001:2015 standard at a pace dictated by you.
